Aftercare

HD Brows £25

Tinting and Waxing £15

Waxing £10

*Patch test – You must have a skin sensitivity test 48 hours prior to your HD Brows service.

MICROBLADING

Microblading is a new and updated semi-permanent make-up technique where, through manual process of inserting pigment into the upper layers of skin, the desired fullness and shape of the eyebrows is created.

The effects can last up to 12-24 months, depending on skin types, after which the pigment fades leaving the skin and your natural brows exactly as they were. The results are very natural and lifelike, giving the brows a natural, fuller look.

Microblading

£300

*This service must be booked at least 48 hours in advance.

MAKE UP APPLICATION

Using the very best quality make up products in existence, all bookings include a trial session to establish your best suited styles and colours.
